

Extracts from the Foreign News.
By the Caledonia.

PROVISIONS, (IRELAND).—A return, moved for by Mr. T. M. Gibson, shows that the gross total quantity of grain and meal landed in Ireland during the ten months preceeding the 22d of May last, amounted to 1,298,074 quarters, of which 900,176 quarters came from foreign countries and British possessions, and 397,898 from Great Britain.

A large fleet of American ships laden with corn and maize, are off the harbor waiting a wind to run in. Mr. Murphy has advised from the States of over one hundred corn laden ships consigned to Cove.—*Cork Constitution*.

The potato rot is not as prevalent in Ireland as was reported by the steamer of June 4th.

The steamer Sarah Sands left Liverpool on the 15th for New York, with 120 first and second class passengers, and large orders for the shipment of corn to Liverpool.

An attempt to float the Great Britain, it is said, will be made on the 1st of July.

The ship Wellington, bound for Westport from America, was plundered of her cargo, Indian corn meal off the entrance of Black Silt Bay, Ireland, on the 2d of May.

The arrangements for a monthly mail to New Orleans are completed. The Royal Mail (West India) Packet Company have received an official communication from the board of admiralty, stating that their lordships have approved of the route, insuring in future, monthly communication with New Orleans via Cat Island.

In Parliament, Sir J. C. Hobhouse announced in the Commons, on the 4th, that the Indian government had reduced both the price and the duty on salt. On the 8th, Lord John Russell stated that he proposed to suspend the navigation laws and the duties on the importation of corn on the 1st March 1848.

In the House of Lords on the 4th on motion of Lord Montagu, a select committee was granted to enquire into the question of Irish emigration.

In the House of Commons, on the 11th of June in reply to a question from Dr. Bowring, Lord Palmerston said that an offer of mediation on the part of Great Britain between Mexico and the United States had been made by the former as well as by the present government, but as yet it had not been accepted by either of the belligerents.

The weather in England has been splendid, and the crops look most promising.

The rapid influx of Irish poor, amounting in Liverpool, to 1,000 per week, presents a very difficult problem in civic economy. Many arrive in the last stage of destitution, and already the victims of incipient fever. From the over-crowded quarters where they huddle together, large districts have become infected, and in most of the large cities, both of England and Scotland, extraordinary measures have become necessary to stay the pestilence.

Messrs. John and Morgan O'Connell have succeeded their late father in the leadership of the Cincinnati Hall Reformers.

The Paris *Univers* quotes the following letter from Rome of the 5th of June:—"A grand funeral service, for the repose of the soul of the great O'Connell, was celebrated today in the ancient church of St. A gatha, belonging to the Irish College. It is in that church his heart has been deposited."

Severe Rebuke.

Gen. Taylor seems to be savage on his federal, anti-war, hypocritical supporters. "No man can support me who opposes the war," says General Taylor. "Take them away, sir, they are worse than Mexicans! Well, as the 'boys' would say, that is some." A Washington correspondent of the Philadelphia *Pennsylvania* says:

"A gentleman now in this city, just from the army of Gen. Taylor, related to me an incident which I deem worthy of repetition. The gentleman was sitting in the tent of 'old Rough and Ready,' in conversation, when they were interrupted by the appearance of a young officer who handed the old General a bundle of newspapers. 'Here is one, General, that has your name up for the Presidency.' 'Let me see it, sir.' The old General looked at it for some minutes, scanning it with seeming interest. 'Take it away, sir,' said the old hero gruffly, 'I don't believe in it—no one can support me who opposes the war—he's worse than a Mexican.'"

The Whig State Central Committee made a fortunate escape in repudiating the old General in due time. We shall now have a fair and open field—Americans on one side, and Mexicans on the other.—*Statesman*.

On Monday evening last, the Brewery of Henry Ferneding, of this city, was entered by some thief or thieves, and robbed of \$484.00, four hundred and thirteen of which was bank notes, and the balance gold and silver. Among the notes stolen was one \$50 bill on the Lafayette Bank of Cincinnati; one \$20 bill on the State Bank at Dayton, and twenty \$1 bills on the Dayton Bank; the latter were new, being dated May 3, 1847.

Mr. F. offers a reward of \$25 to any one who will arrest the thief or thieves and bring them to justice, and 10 per cent. on all the money that may be recovered.—*Western Empire*.

In the English prices current, the reader frequently finds wheat quoted at so many shillings "per quarter," a term which all do not comprehend. The following explanation, which we find in another journal, may be to such persons not uninteresting:

"A quarter of wheat is an English measure of eight standard bushels. If, therefore, one sack wheat quoted at 56 shillings a quarter—a shilling is 254 cents; multiply by 7, and we have \$1.57 1/2 per bushel."

Sudden Death.—Yesterday an Ohio volunteer, just returned from Mexico, died suddenly on the mail boat at our wharf, in a few minutes after he went on board.—*Louisville Democrat*.

The new Jewish Synagogue at New York, called the "Gate of Prayer," was consecrated on Friday last with the usual ceremonies. Eight synagogues have been erected in New York within the last ten years.

The Transcript says that all the notes which will be issued by the Dayton Bank in future will have "brown backs."

Mrs. Fremont.—This lady, it appears who left Washington with the fam us Kit Carson, designs traveling under his protection, for eight or ten hundred miles, to a point where she has agreed to meet her husband. Here is a wife worthy of the young hero-explorer of the Rocky Mountains. Mrs. Fremont is a daughter of Col. T. H. Benton.
